

Dear patients

We are open with some minor ongoing changes.

We will ask you to come at your appointment time, not early, to minimise footfall within the practice.

If you can bring as little as possible with you and for adults to attend on their own. The patient toilet will be unavailable and you should receive a screening call prior to your appointment.

Should you have a high temperature, new persistent cough or loss of taste/smell, please call or email the practice to cancel your appointment.

Due to the pandemic, we will have a different working pattern for the next few months, although our opening times will remain the same. Please bear with us during this time.

We are carrying out all routine treatments now.

Kind regards

Unique Smiles
